AMENDMENTS TO THE CLAIMS:

Please amend the claims as follows:

1-13. (Canceled)

14. (Previously Presented) A woven/non-woven fabric, comprising:

a plurality of waste threads of a natural fiber forming a web of a predetermined weight,
wherein a consistency and a rigidity of the web are provided by a purified water spray at
high pressure and subsequent removal of moisture using high temperature, and
wherein said plurality of waste threads comprises fibers having a substantially uniform
length.

15. (Previously Presented) The woven/non-woven fabric as claimed in claim 14, wherein said
fibers comprise a length in a range of between about 8 mm to about 18 mm, and

wherein a weight of said web of waste threads is not less than about 35 grams per square
meter.

16. (Original) The woven/non-woven fabric as claimed in claim 14, wherein said plurality of
waste threads comprise a by-product of a spinning process.

17. (Original) The woven/non-woven fabric as claimed in claim 14, wherein said plurality of
waste threads comprise pure cotton.

18-20. (Canceled)

21. (Previously Presented) The woven/non-woven fabric as claimed in claim 14, wherein said fibers comprise a length in a range of between about 8 mm to about 18 mm.

22. (Previously Presented) The woven/non-woven fabric as claimed in claim 14, wherein said plurality of waste threads comprise non-allergenic natural fiber.

23. (Currently Amended) The woven/non-woven fabric as claimed in claim 14, wherein said fibers comprise a ~~thickness of~~ not greater than 4.5 micrograms per inch of fiber length micronaire.

24. (Previously Presented) The woven/non-woven fabric as claimed in claim 14, wherein the fabric comprises a high absorption capacity.

25. (Previously Presented) The woven/non-woven fabric as claimed in claim 24, wherein said absorption capacity is in a range of about 15 times to about 16 times a weight of the fabric.

26. (Currently Amended) The woven/non-woven fabric as claimed in claim 14, wherein said fibers are bound in a horizontal direction planar to a plane of the web and a transversal direction perpendicular to the plane of the web.

27. (Previously Presented) A woven/non-woven fabric, comprising:

a plurality of threads of a fiber forming a web,

wherein said plurality of threads comprises fibers having a substantially uniform length.

28. (Currently Amended) The woven/non-woven fabric as claimed in claim 14 +, wherein said web comprises a thickness in a range from 1 mm to 10 mm.
